

FIRST SKIRMISH WON BY ADMINISTRATION IN DISARMAMENT FIGHT

Refuse To Incorporate Borah Resolution Calling For Conference With Japan And England In Appropriation--Promises Big Fight In Senate.

WASHINGTON, May 4.—Administration forces won the first skirmish today in the impending senate fight over naval disarmament.

Guided by the expressed wishes of President Harding, the senate naval committee refused to incorporate in the annual naval appropriation measure the proposal of Senator Borah, authorizing and requesting the chief executive to invite Great Britain and Japan to send representatives to a disarmament conference here.

Senator Borah had given notice of the fight to come by re-introducing his proposal and moving to suspend the rules to make it in order.

Senator Pomerene, Democrat of Ohio, also gave formal notice that he intended to present a disarmament amendment to the naval bill. His amendment would authorize the president to delay the building program six months while an effort was being made to arrange a conference. Should an agreement to limit construction be reached by the three countries the president might suspend the building program in whole or in part.

It is understood that administration leaders in congress plan to delay action on any such proposals because of the desire of the President not to have this question inflamed in the present state of international relations.

As favorably reported today by the naval committee, the annual naval bill, which failed at the last session provides not only funds for continuing construction on the uncompleted 1916 program, but also for a personnel 20,000 in excess of the 100,000 proposed by the house. It also carries funds for beginning work on various naval bases on the Pacific coast.

The committee increased the house total of \$296,000,000 to \$496,500,000. The principal increases include \$12,000,000 for aviation, \$15,000,000 to start work on two new aircraft carriers about \$7,000,000 to begin construction of a new fleet base at Alameda, Calif., and other Pacific coast bases, and about \$7,000,000 to expedite construction of capital ships. There also were large increases for pay and support of personnel.

FINAL DETAILS OF REPARATIONS TO BE SETTLED THURSDAY

Allied Ultimatum to be Signed and Delivered to Germany

LONDON, May 4.—The settling of the final details of the reparations question has been effectively accomplished and the allied ultimatum and the terms of the reparations commission to be handed Germany will be signed by the supreme council tomorrow.

Premier Lloyd George will hand the ultimatum to Dr. Stahmer, the German ambassador, some time tomorrow night, while the terms will be turned over to the German commission in Paris Thursday evening.

The settling of the final details was a protracted task for the supreme council which was occupied in its final session for three hours tonight, rising at midnight.

Premier Lloyd George tomorrow will address the house of commons in explanation of the arrangements.

The reparations commission has adopted the supreme council's plan concerning German bonds. The first issue, which will be made immediately, will aggregate 600,000,000 pounds sterling. They will have priority over the later series. Interest will not be payable until after the end of the first quarter following their issue. The second series, to be issued in November, will be for 1,900,000,000 pounds sterling. These will have priority over subsequent issues.

WOULD ABOLISH COM- TROLLER OF CURRENCY

Washington, May 4.—Renewed recommendations that the office of comptroller of the currency be abolished are contained in a treasury department statement furnished today to the house banking committee, which is considering a bill embodying the proposals. Under the plan, comptroller Crissinger would be made under-secretary of the treasury and the national bank examining bureau would be merged with the federal reserve banking system.

GERMANY PROTESTS POLES ACTION IN SILESIA PROVINCE

Says They are Trying to Take it by Force of Arms

(By The Associated Press)

LONDON, May 4.—Dr. Stahmer, the German ambassador, tonight presented a note to the foreign office, protesting against the Polish coup in Upper Silesia as an apparently concerted effort to take the province by force and refusing all responsibility for the situation and its consequences. The note also has been communicated to the other allied governments. It declares that by the action of irresponsible Polish agents and provocateurs a strike has been engineered in Upper Silesia through the wage mining and industrial areas, terrorizing the workers.

The organized destruction of railways and bridges, it is said, shows a prearranged plan for Polish insurrections. The inter-allied commission, it is added, has recognized that the German population has given no provocation.

Late in the afternoon Dr. Stahmer presented a second note, stating that the situation had become extremely serious and requiring details, according to which the insurgents had seized the entire industrial region, including the districts of Pless, Rybnik and Ratibor, and a portion of Lublinitz and Oppeln.

The inter-allied commission, the note declares, promised to intervene with all measures at its disposal, but no tangible success in the suppression of the revolt can be observed.

Dr. Stahmer concludes by calling the attention of the British government to the extreme danger unless speedy steps are taken to suppress the revolt.

British and Poles Fight

Oppeln, Upper Silesia, May 4.—Colonel Bond, British control officer at Gross Strehlitz, reported to British headquarters here tonight that he had opened artillery fire on 2,000 to 3,000 Poles attempting to occupy the city. The Poles brought up light field pieces and were replying.

Colonel Bond, who has approximately 200 Italian troops, also reported that he probably could not hold out long.

A British sergeant major has been mortally wounded. A crowd of Germans attacked a Pole and beat him to death before the police could interfere. In Katowitz crowds are parading the streets but there is no fighting.

Polish forces are reported marching unopposed toward Lublinitz, although rumors are current that the Germans are forming in Rosenberg, 25 miles from Oppeln, either for counter drive or defense.

Inter-allied officials heard these rumors with some credence. Major Watts, British representative, said: "If the Poles keep up their advance we will have civil war here. Serious fighting looks probable."

French authorities appear hopeful of re-establishing the government and say that the invaders will be expelled. But the fact is pointed out that the whole country is overrun and the task will be difficult, if not impossible, as the peasants are known to sympathize with the Poles and are much better organized than the German residents in the towns. The Poles, it is said, believe their action meets with the tacit approval of the French.

The British here are outspoken in blaming the Poles for the whole affair and this has developed friction between the British and the French. Major Cassel, British control officer at Tarnowitz, and Colonel Bond, have been thrown into acutely unpleasant positions and are virtually helpless and surrounded by armed Poles who do not conceal their hostility toward the British.

The populations in the south-east mining districts, where all industry is at a standstill, are factious and serious suffering unless rail communications are re-established in the next few days.

NO JUSTIFICATION FOR WAGE REDUCTION

(By The Associated Press)

WASHINGTON, May 4.—"There is no justification for the twenty per cent reduction in the wages of employees of the steel trust," Frank Morrison, secretary of the American Federation of Labor, declared today, commenting on the announcement yesterday by the United States Steel Corporation of a cut in wages effective May 16.

"The employees of the steel trust are unorganized," said Mr. Morrison. "They are helpless. The steel trust is a law unto itself and it is permitted to violate the anti-trust laws for fear of interfering with foreign trade."

REPUBLICAN STATE CHAIRMAN RESIGNS

Jefferson, City, Mo., May 4.—J. G. Hughes, state bank commissioner, today resigned as chairman of the Republican state committee. Dr. E. B. Clements was elected to succeed him.

Governor Small

Issues Proclamation

SPRINGFIELD, May 4.—Governor Small tonight issued a Memorial Day proclamation calling upon the people of the state to lay aside their pursuit of amusement on that day and unite in doing honor to the patriotic dead.

"As the years go by it has seemed that many of our people have lost sight of the original purpose and significance of the day and that recreation and sports have taken the place in a large measure of the duty and reverence we owe our noble dead," the proclamation said. "In the midst of our pleasures let us not forget the purpose to which Memorial Day has been dedicated. Let us show all respect and devotion to the memory of those who made the supreme sacrifice for us. We owe this to those who died that the nation might live; we owe it to the gallant men who died that the oppressed might be free; we owe it to our brave sons who gave their lives for democracy and the right, and not the least do we owe to those who, in the great conflict ungrudgingly and unselfishly gave their fathers, brothers and sons to the service of their country."

EFFORTS TO SETTLE SHIPPING STRIKE ARE UNAVAILING

Efforts of Secretaries Davis and Hoover Come to Naught

(By The Associated Press)

WASHINGTON, May 4.—Efforts of Secretaries Davis and Hoover to settle the wage controversy of the shipping board and American ship owners with their employees apparently were unavailing today. A feeling of hopelessness was indicated by all parties after a series of separate conferences by the secretaries with Chairman Benson, the ship owners and the men.

Bert L. Todd, of the Marine Engineers, declared after conferring with Secretary Davis, that "there was no hopes for a settlement," adding that the owners had refused to consider proposals made by Secretaries Davis and Hoover, and Secretary Hoover indicated that no progress had been made.

Chairman Benson declared the attitude of the board was unchanged and while both he and the ship owners were willing to change to some extent the working rules, their position on the matter as a whole remained unchanged.

Secretary Davis, in conference with the marine engineers, evolved a set of working rules said to be acceptable to the men. It is understood that upon these rules was based the hopes of a settlement.

CONFERENCE IS SUGGESTED BY THE COAL OPERATORS

Would Bring Four Organizations Together to Consider Legislation

(By The Associated Press)

WASHINGTON, May 4.—A four sided conference to cooperate on legislation relating to coal production was suggested by coal operators today before a senate interstate commerce committee.

J. D. A. Morrow, vice president of the National Coal Association, said the operators desired legislative and executive action which would be helpful to the public as well as to the industry and the government. He proposed that Secretaries Hoover and Fall, the chairmen of senate and house committees concerned, and representatives of the operators and miners come together and compromise. Frelinghuysen agreed to take the question up with other committee heads.

Government aid in the operators' campaign to stimulate immediate purchases of coal also was asked. Senator Frelinghuysen remarked that a coal "crisis" now existed which threatened a famine next winter unless the public resumed buying immediately.

MAY HAVE TO WORK

Washington, May 4.—Members of congress would be compelled to devote their entire time to the duties of their offices under a measure presented today by Senator Kenyon, Republican, Iowa. It is in the form of an amendment to a bill placing the same restriction on federal judges presented recently by Senator Dial, Democrat, of South Carolina, who attacked Judge Landis of Chicago, for accepting the position of supreme arbiter of baseball while retaining his seat on the bench.

OKLAHOMA BANKS CLOSED

Tulsa, Okla., May 4.—The doors of the Exchange State Bank and the Central State Bank, both of Kiefer, Okla., and the Bank Jenks at Jenks, Okla., were closed today on order of the state bank commissioner.

ACTIVE POLICY IS ADVOCATED TO KEEP TRADE SUPERMACY

Nation Must Retain its Rightful Place in Trade

(By The Associated Press)

CLEVELAND, Ohio, May 4.—The predominating note sounded at the opening sessions today of the eighth annual convention of the national foreign trade council was the adoption of a active policy of cooperation between bankers, manufacturers and merchants to maintain world supremacy for the United States in foreign trade.

Organization of financial resources to supply long time credits to foreign countries, doing away with burdening taxation of American investments abroad, and the adoption of an elastic tariff policy, were cited as important steps in accomplishing this object. The foreign trade financing corporation, formed under the provisions of the Edge law, to provide extension of foreign credits, was approved by speakers as a help to America's foreign trade.

In opening the convention, James A. Farrell of New York, chairman of the council, and president of the United States Steel Corporation, said:

"The war placed the United States where it belongs in the foreign trade list—in the lead. And now it is only a matter of a definite policy, backed not only by the merchants, bankers and manufacturers, but by the government, to maintain our rightful position among nations."

W. P. G. Harding, governor of the federal reserve board, Washington, also spoke at the morning session on "Frozen credits; what they are and how to thaw them," urging that methods be adopted to provide foreign countries with sufficient credit to enable them to regain their pre-war standing in production and distribution.

No Danger Now

"There is no danger now of any general financial trouble in this country," he said. "The present is a time to do things in the business world, a time for courage. We are on much safer basis than we were a year ago. Frozen credits can best be thawed out by a stimulation of business. Federal reserve bank reserves are higher than they have been since the fall of 1918; with the present average reserve fifty five per cent, as compared with 42 per cent, a year ago, the banks are able to safely take part in a movement to stimulate business with a view to liquidating frozen credits."

The general convention committee of nearly one hundred members with James A. Farrell, New York, as chairman, was named today. At the afternoon session the topic was "The need for long time credits in our foreign trade."

George R. Meyer, president of the Illinois Manufacturers' Association, spoke on "their value to the exporting manufacturer," and Julius H. Barnes of New York, on "their value to the agricultural exporter."

The meetings are divided into two parts, the general sessions at which the general policy of the council is discussed with all delegates present, and several group sessions at which technical and scientific questions relating to export are discussed.

GERMAN CABINET TENDERS RESIGNATION

So Notifies President Ebert—He Induces them to Continue to Serve in Current Affairs.

(By The Associated Press)

BERLIN, May 4.—The German cabinet has resigned.

London, May 4.—A telephone message received from Paris gives a Berlin dispatch saying that in view of the situation that arose in consequence of the reply of Secretary Hughes to Germany's counter proposals on reparations, the German government unanimously decided to resign. Chancellor Frenkenbach informed President Ebert of the cabinet's decision, whereupon the president requested the ministry to continue to deal with current affairs, which it consented to do.

The German cabinet was formed July 25, 1920.

MARY GARDEN GETS LEGION OF HONOR CROSS

Chicago, May 4.—The cross of the French legion of honor was presented to Mary Garden, general director of the Chicago Opera company, at a luncheon given in her honor today by the Chicago association of Commerce. The presentation speech was made by M. Didot, French vice consul, and the medal was pinned on Miss Garden's gown by Lucien Muratore, tenor of the opera company.

The luncheon opened the campaign to "democratize opera by transferring the sponsorship from the social register to the telephone book."

STRUGGLE CONSTANT FOR UNSKILLED R. R. LABOR SAYS EASTTY

For Them the Spectre of Unemployment is Never Laid—Vice President of Railway and Steamship Clerks Pleads for Decent Living Wage—Declares Public Deceived

(By The Associated Press)

CHICAGO, May 4.—Pleading that life is a "constant struggle, with the odds always against them," for unskilled railroad labor, George Eastty, vice president of the Brotherhood of Railway and Steamship Clerks, Freight Handlers and Station Employees, today urged the railroad labor board to refuse any wage reduction at this time.

"We are here pleading the cause of human beings who need food, clothing and shelter every day," he said. "To them, the spectre of unemployment is a ghost that is never laid. To them a difference of a few cents an hour is the difference between bare existence and decent living."

Mr. Eastty declared the public had been deceived when it was told high wages were the cause of high prices. Profits he said, were the real cause.

ILLINOIS SENATORS CALL EACH OTHER NAMES IN DEBATE

Amusement for Galleries Furnished By Solons

(By The Associated Press)

SPRINGFIELD, May 4.—The senate chamber sizzled with the heat of conflict tonight when Senator Sadler of Chicago, and Senator Kessinger of Aurora, hurled personalities across the floor during the climax of the hearing on the Lantz grain bills.

C. V. Gregory, member of the legislative committee of the Illinois Agricultural Association, had made the charge that gambling was taking place in the Chicago board of trade. Senator Sadler asked him if he was sure enough of his statement to swear out a warrant for some grain man for violating the state laws against gambling.

Jumping to his feet, Senator Kessinger shouted: "If you go to a bucket shop and buy on margin and don't expect any actual delivery, what is it, what is it?"

"If I would be permitted to answer just what I think, I would say that you are about the nearest thing to a 'what is it' as anything ever saw," Senator Sadler replied with heat.

Meant Nothing Personal
"What I asked that question I had no intention of becoming personal with you and I did not expect such a reply, but I'll say to you that I never got any retainers from widows to get their sons out of the penitentiary and then never got them out," Senator Kessinger shouted.

The two senators continued their indecent in personalities with the galleries applauding both until Senator Glackin, Democrat of Chicago, rose to ask Mr. Gregory another question.

"Is it not so that farmers were advised last year by the organizations behind these bills to hold their grain for higher prices?" Senator Glackin asked.

"That advice was given in Kansas," Mr. Gregory replied. Speaking before the senate Joseph P. Griffin, president of the board of trade, declared that the farmers and members of the senate had received advice from persons unqualified and incompetent to give actual facts about the operations of the board.

UNION OFFICIALS HEARD ON SCOTT BILL

Washington, May 4.—Union officials opposing the Scott bill proposing modifications of the Lafollette act as applied to shipping on the Great Lakes were heard today by the house committee on merchant marine after representatives of the ship owners had testified in favor of the bill.

Patrick O'Brien of Buffalo, N. Y., appearing for the seamen, declared that the same application of the law should be made to ship pings on the lakes as to the ocean. He opposed any extension of the so-called excursion season on the lakes and reduction of full crews from three to two on short runs.

NEWBERRY IS MADE CHAIRMAN

Chicago, May 4.—Phelps Newberry of Detroit, was made chairman for Michigan of the national training camp association at a meeting of the executive committee of the central training camp association today.

F. M. Alger of Detroit, was appointed a member of the national committee of the Central Training Camp association.

"The chamber of commerce wanted to know what was the matter with business, so it sent for Mr. Schwab," Mr. Eastty continued. "The philanthropic gentleman who heads the Bethlehem Steel Company—that marvelously good man who receives a new certificate of virtue every 90 days and who accepts medals and crosses from European monarchs and double crosses American labor—said high labor costs were to blame and that wages in all lines must come down."

"It never occurs to Mr. Schwab to suggest that profits come down. Mr. Schwab did not tell the public that after the wage increases had been paid, the price of finished steel was only 41 per cent higher in 1917 than it was three years before the war, while the increase in net profits per ton of finished product was 220 per cent."

Decent Living Wage.
All that his organization asked, Mr. Eastty said, was a steady job, under fair conditions, at a decent living wage.

Closing the union's argument, E. F. Grable of the maintenance of way employees, declared that the members of his organization were the lowest paid group of the railroad workers.

He asked that the labor board establish a minimum subsistence of \$1800 a year for a family of five, and read a telegram announcing that the Mississippi Central had announced a cut in section men's wages of 15 cents an hour for a ten hour day.

W. J. Lauck, economist for the unions, presented a number of exhibits in all of which the plea for an "American standard of living" was stressed. He concluded his presentation by an analysis of figures presented by the railroads, intended to show reductions in the cost of living and the wages of outside labor.

Mr. Lauck pointed out what he called "defects" in the carriers' exhibits, calling attention to the fact that they did not take into consideration the number of hours worked a day and declaring that only basic industries should be used in any comparison.

Taking rebuttal to the railroads' testimony on the cost of living and decline in outside wages, Lauck declared the railroads' data "entirely failed to support the assertion made."

"Defects," in railroad exhibits, as related by Lauck, included: "1. Industries selected for comparison are not representative. The only reasonable basis for comparison should be basic industries, and inclusion of these industries would totally change the average shown."

"2. No account is taken of the working day. Hourly rates for industry having 9, 10, 11 or 12 hours days are compared without hesitation to hourly rates paid railroad workers for an 8 hour day."

Lauck then took up individually the exhibits of the various roads and endeavored to show that the results of the comparisons made depended largely on the selection of certain plants and industries and the omission of others.

Taking up the exhibits of the Pennsylvania railroad, Lauck declared that of 960 plants, twenty per cent employ less than five laborers each, only 15 per cent as many as 100 and less than two per cent as many as 500 laborers each. "The majority of these establishments," said Mr. Lauck, "are not even important industries." Lauck then analyzed the cases of the Chicago & Rock Island, Cleveland, Cincinnati, Chicago & St. Louis, and Nashville, Chattanooga & St. Louis roads.

In his analysis of the Chicago, Burlington & Quincy, exhibits, Lauck pointed out that "nine tenths of the establishments listed in the rate comparison are small establishments which cannot be classed as basic industries. Twelve per cent of the listed outside industries employ less than two common laborers each, 28 per cent less than 5 laborers, 54 per cent less than 25 laborers and only 11 per cent 100 or more."

COURT HEARING IS ATTENDED BY MRS. STILLMAN

Listens to Testimony Im- plicating Her With In- dian Guide

(By The Associated Press)

NEW YORK, May 4.—Testimony that Mrs. Anne U. Stillman and Fred Beauvais, an Indian guide, were seen together in the former's room at the Stillman summer camp in Grande Anse, Quebec, was given today at a secret hearing in the divorce suit brought by James A. Stillman, wealthy New York banker. The alleged meeting was described by George Adams, 75 years old woodsman, who claims to have witnessed it thru a hole in the window curtain.

Mr. Stillman did not attend the hearing, but his wife sat with her attorneys through the proceedings, offering suggestions during cross examination of the four witnesses, who testified against her. It was the first appearance in court proceedings of either of the principals, D. J. Gleason, as referee, is hearing testimony.

Makes Counter Charges.
Mrs. Stillman is charged with having intimate relations with Beauvais, described as the father of her infant son, Guy. In her answer, she denies her husband's charges and sets up an affirmative defense by accusing him of having had improper relations with a former Broadway chorus girl and being the father of the woman's child.

The banker's lawyers today made another effort to introduce in evidence certain letters alleged to have passed between Beauvais and Mrs. Stillman. Some were marked for identification today after Bernard Kelly, for three years superintendent of the Stillman country place at Pleasantville, New York, had identified the handwriting as that of Beauvais.

After the hearing, Mrs. Stillman came out of the room smiling and willingly posed for newspaper photographers before departing. She told her counsel she was pleased with the day's developments.

While Senator Newberry won a victory in the supreme court finding, that should not be taken as approval of the system of huge campaign expenditures. In elections where so much money is spent there is certain to be a feeling that irregularities exist.

It is not surprising that Chicago business interests oppose regulation of the board of trade which may put that institution outside the state. Hundreds of millions of dollars pass thru the Chicago board each year and board of trade removal would mean a big loss of business.

The jury which tried "Willie" Dalton for the theft of \$775,000 worth of bonds was unable to agree, six standing for acquittal and six for guilt. The result goes to show that juries take into account other things than evidence, for this boy of sixteen did not deny that he put the bonds into his own grip and then disappeared.

Judge Landis has let it be known that he will soon resign from the federal bench in order to devote all of his time to his position as baseball commissioner. The judge did not resign under fire but perhaps his critics will be satisfied with the results that they can trace to the impeachment proceedings inaugurated in congress and subsequently dropped.

The license and fee ordinance recently passed by the city council governing certain amusements and various other things is certainly long enough to be formidable. However, the subject matter included represents the best ideas of ordinances in effect in a number of other Illinois cities.

One of the most important sections provides regulations for public dances—and they need it.

A Chicago senator has presented a bill in the Illinois legislature providing for the formation of the state of Northern Illinois. It is probable that there is no serious thought that the bill will become a law. However, it must be admitted that many of the problems of Chicago as a great metropolis have no relationship to downstate conditions. While Chicago often makes objections because downstate counties pass laws which are unfavorable to the city, a constant fight must be kept to prevent Chicago from dominating the whole state.

IMMEDIATE TAX RELIEF NOT PROMISED

That the Republican party made no campaign pledge of early reduction of taxes is asserted by the Republican Publicity association.

"A prominent Democratic organ remarks with an attempt at facetiousness that the Republican national administration will talk about reducing taxes but will accomplish nothing soon in that direction. That paper also intimates that the Republicans promised reduction of taxes. As a matter of fact, neither party pledged tax reductions. In the Republican platform adopted at Chicago the section relating to taxation began as follows:

"The burden of taxation imposed upon the American people is staggering; but in presenting a true statement of the situation we must face the fact that, while the character of the taxes can and should be changed, an early reduction of the amount of revenue to be raised is not to be expected. The next Republican administration will inherit from its Democratic predecessor a floating indebtedness of over three billion dollars, the prompt liquidation of which is demanded by sound financial considerations."

Don't Squeeze Blackheads—Dissolve Them

Squeezing and pinching out blackheads make the pores large and cause irritation—then, too, after they have become hard you cannot get all of them out. Blackheads are caused by accumulations of dust and dirt and secretions from the skin and there is only one safe and sure way and one that never fails to get rid of them—a simple way, too—that is to dissolve them. Just get that in a hot, wet sponge—rub over the blackheads briskly for a few seconds—wash off and you'll be surprised to see that every blackhead has disappeared, and the skin will be left soft and the pores in their natural condition. Anyone troubled with these unsightly blemishes should try this simple method.

W. T. PIERMAN DIED WEDNESDAY EVENING

Well Known Resident Passes Away After Year's Illness—Funeral Services at Residence Friday.

William T. Pierman passed away at his late residence on West Lafayette avenue, at five o'clock Wednesday, May 4, 1921.

He had been in failing health the past year, but his last recent illness was of short duration.

Decedent was the son of Jonas and Mary Pierman and was born near West Point, Kentucky, October 28, 1848, and came to Illinois when a young man, and spent practically his entire life in Morgan county.

In 1874 he was united in marriage to Miss Catherine Margaret Safer and to this union five children were born, four of whom preceded him in death.

For many years the family resided one and one-half miles south of Orleans, where he farmed extensively, but from failing health retired and moved to

Jacksonville ten years ago where he has since resided.

Mr. Pierman united with the Pisgah Presbyterian church several years ago, and since his residence in the city attended Westminster church whenever his health permitted.

He was known throughout the county for his sterling worth and upright business ability, a kind husband and loving father, and in his passing Morgan county loses one of its oldest and most highly respected citizens.

He leaves to mourn his loss his wife, one daughter, Mrs. Edward Collins, of Prentice, and one granddaughter. Also two half-brothers, Joseph H. Miller, of St. Paul, Nebraska, and George Miller, of this city. The remains were taken to Reynolds Mortuary and prepared for burial.

Funeral services will be held at his late residence, 350 West Lafayette avenue, Friday at 2:30 p. m. Interment will be in Diamond Grove cemetery.

NURSING ACTIVITIES COMMITTEE MEETS

Red Cross Committee Held Meeting Wednesday Night for Consideration of Business—Time for Crippled Children May 20.

The nursing activities committee of the Morgan county Red Cross held a meeting Wednesday night at which various matters of business were given attention. Miss Riecke presented a report for the month of April, indicating that she has put in some very busy days. Miss Riecke began her work here the early part of April and since that time has visited various communities in the county, examining public school children and those under school age. Some facts from her report will be made public at a later date.

It was announced that Dr. C. W. East, state orthopedist, will be here Friday, May 20, and will conduct a clinic for crippled children. The clinic is open to all crippled children of Morgan county and there will be no charge for examination. Dr. East will bring with him two nurses and a brace maker and will confer with the family physician regarding each case brought to his attention. In this way the specialist will be able to gain a better understanding of each particular case and to give instructions for future care which will be of great benefit.

It was decided that a volunteer motor corps will be necessary for that day, in order to bring the crippled children to the clinic. Car owners who are willing to donate a few hours' use of their cars on that day are asked to so notify the committee.

DO YOU WISH YOUR STREET OILED

THIS SEASON

We have given the contract for oiling the dirt streets in Jacksonville during the season of 1921. Our city council is unable with the money it has at its disposal to oil the entire town. There are parts of our town where the residents do not want their streets oiled; these streets we do not wish to oil, because there are other streets where the auto traffic is so heavy that it is almost impossible to live without having the dust settled. If you want your particular street oiled and will help our city council pay for the work it is willing to see that your street is properly taken care of during the season.

Our solicitors will call on you in the near future to find out if you wish the oiling. If you do there will be a nominal charge of 5c per front foot for your residence property. The city council is in position to pay the balance of the oiling. It is also in position to pay for the oiling of the vacant lots and intersections. If your property is on the corner, you will be charged only for your frontage; there will be no charge for the side street.

Talk this matter over with your neighbors and find out what your decision will be. Remember, you can't all get this oil and we don't want to put it on any street where the residents do not want it. This is not at all compulsory, the decision rests entirely with you. If you want the oil you must help out on the expense. Have your mind made up so when our solicitor calls, you can let him know your decision.

—Did you know that eighty-eight hours of complete wakefulness means insanity for the average person—stay awake that long and you will lose your reason. That makes rest pretty important, does it not? ROBIN HOOD IS COMING TO THE GRAND

So promising and overwhelming is the assurance of support of "Robin Hood" that Manager Eschbach of the Grand is especially gratified and the De Koven masterpiece will be presented here at the Grand tomorrow night.

The coming of Ralph Dunbar's production of the famous American comic opera, if one is to judge by the sentiments expressed where the company has been, will prove a noteworthy event in local annals, for it affords the opportunity desired by many of hearing the opera adequately done, with a cast of real artists, an excellent chorus, an orchestra of symphony players, a full quota of mechanics with complete equipment of scenery, costumes, properties and effects. That

some producer is willing to assume the risk of sending to the smaller cities such a production, is cause for gratitude from every one who appreciates real worth in this field.

While the usual advertising methods will be utilized, it should be remembered that the coming of Robin Hood is somewhat of an experiment, and if we are to be accorded visits by productions of its class, the attendance of many who are not interested in ordinary theatrical offerings must be assured. To do this, everybody who believes in American standards of musical art and enjoys clean, delightful entertainment should do his share of boosting.

QUINCY LILYS WILL PLAY INDEES SUNDAY

Team Is Said to Be One of the Fastest in These Parts—Buck Sims Will Hurl—Has been Taking Treatment for His Arm.
Fans are promised one of the fastest games of the season next Sunday when the Quincy Lilys will hook up with the Indians at South Side park.
This team is one of the strongest in this section. Last year they lost only eight games out of thirty two played, most of them on foreign lots which goes to show it is a good road team.
Buck Sims who hurled such a good game last Sunday for the Indians, said last night he was ready to go again. Sims has been taking treatments for the old soup bone from P. H. Griggs and says that it has taken all the kinks out and left the arm apparently as good as ever. Judging from his work last Sunday he has staged a real comeback.
The Lilys will arrive in Jacksonville Saturday night, playing at Baylis Saturday afternoon. The game will be called at 2:30 o'clock in order that the Lilys can catch the afternoon train for home.

WHITE SOX WILL HOLD PRACTICE
Members of the Jacksonville White Sox are requested to report at the Jacksonville State Hospital diamond this afternoon at 5 o'clock for practice. The White Sox won a game at Virginia last Sunday and have a strong lineup.
Manager White, however, is always looking for talent. He invites any local players to be present and tryout this evening with the team. If they have the ability they will be given a chance.

PORTLAND, OREGON, is the ROSE CITY. June 8th to 10th occurs the great rose festival.
Her people and guests hold carnival on streets strewn with roses. Rose bedecked automobiles and symbolic floats parade the streets. The holiday spirit is expressed with a million cut roses as confetti, while seemingly inexhaustible millions of roses still remain to beautify her door yards.
Then, too, Portland has the wonderful Columbia River Highway.

Seattle and Tacoma
Go also to Mt. Rainier National Park, the "Mountain that was God" with its Nisqually Glacier bordered by brilliant wild flowers. Return by way of California and Salt Lake City. Daily Market Report

TREND OF MARKET DISAPPOINTING SHARP DOWNTURN IN WHEAT PRICES

By Associated Press.
NEW YORK, May 4.—The
trend of today's stock market
was somewhat disappointing to
those who expected that dealings
would be governed to a great de-
gree by the twenty per cent wage
reduction announced by the
United States Steel Corporation
late yesterday.
Steels and kindred issues were
quite active and firm to strong
at the outset, but later yielded in
prominence and strength.
Altho the steel wage cut had
been clearly foreshadowed, it
was popularly regarded as a
constructive measure. Its signi-
ficance, it was argued would have
carried greater weight if attend-
ed by a downward revision of
prices.
United States Steel common
made a new high quotation in
the final hour when short cover-
ing was most urgent and closed
at a gain of ¼ points at \$5½.
Sales amounted to 800,000
shares.
Call money opened and held at
6½ per cent, thruout, but loaned
freely at six per cent in the out-
side market. The bond market
was mixed, some rails and for-
eign notations strengthening.
Liberty bonds were irregular.

Took the Druggist's Advice

Danville, Ill.—The first year after I was married I went down in health and strength. The druggist recommended Dr. Pierce's Golden Discovery to me as the best tonic on the market. One bottle of the essence to take, strengthened me. 'Discovery' was it not only all I found needed but I gained in weight as well. My health has been better ever since I took the 'Discovery' so I do not hesitate to recommend it to others as the druggist did to me, the best tonic on the market.—Mrs. Mary Livingston, 521 May St. No alcohol.—Adv.

DISAPPOINTED

Wash woman failed to come. Clothes soaped and everything ready. Why bother waiting for her at all.

Get an electric washer which will do the ordinary household washing for about 4c, which is all it would cost for the electric energy used.

You simply supervise the rubbing, rinsing and wringing—while the washer is doing it.

Drop in and see how easily and cheaply your washing can be done with a Crystal or Laundry Queen washer.

What we do for homes that buy
The NEW EDISON

"The Phonograph with a Soul"

AFTER you've bought, what then?

Will you be able to get the selections you like best? Will you have an expert to look after your instrument regularly and keep it tuned year after year? Will you have a music organization interested in helping you get every enjoyment out of your instrument?

You will—if you buy your New Edison from us.

Our business is helping people find true musical enjoyment. Equipping their homes with New Edisons is only one step in the process. Serving their homes with Edison after-service is the other step.

We give this service, every time we sell a New Edison. Remember—the two together bring the music you want in your home.
